### **EXAMINER'S AMENDMENT**

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows: claim 2, line 2, "after the coupling step" has been deleted.

2. The following is an examiner's statement of reasons for allowance: the prior art does not teach or fairly suggest a driving method for a liquid crystal display comprising, in combination with the remaining features of the claims, changing a gate voltage of the transistor to drive the transistor; during a display period of a frame, for each pixel, applying a display voltage to a liquid crystal unit and changing the display voltage of the liquid crystal unit to a blanking display voltage of a black frame by changing the gate voltage of the transistor.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
